## What is emergency rehab?

Emergency rehab is the process of providing medical care to people who have been injured or sickened in a mass casualty event. The goal of emergency rehab is to stabilize patients and prevent further injuries or complications.

## Who is this manual for?

This manual is for emergency responders of all levels, from first responders to paramedics and physicians. It is also a valuable resource for emergency planners and administrators.

### **What does this manual cover?**

This manual covers a wide range of topics, including:

- Triage and patient assessment
- Basic life support
- Advanced life support
- Trauma care
- Medical emergencies
- Pediatric emergencies
- Geriatric emergencies
- Behavioral health emergencies
- Mass casualty incident management

### **How can I get a copy of this manual?**

The Emergency Rehab Manual Volume One is available for purchase from the National Association of Emergency Medical Technicians (NAEMT).

The Emergency Rehab Manual Volume One is an essential resource for emergency responders. This comprehensive manual provides detailed instructions on how to provide emergency medical care in a variety of situations. I highly recommend this manual to all emergency responders.
